

RHODE ISLAND STATE POLICE

New Headquarters and State Forensic Laboratory

Cranston, Rhode Island

SGA provided full schematic and design development consulting services to the firms of Robinson Green Beretta and L. Robert Kimball & Associates. The 145,000 SF facility aims to consolidate a variety of formerly separated functions into one building and houses the State Police forensic laboratory and administrative operations, holding, 9-1-1 communications, the State crime laboratory, and all fleet maintenance and operations. In addition to responding to significant functional needs, the facility design also responds aesthetically to the State's desire to portray a classic image to the public.
