

CENTRAL YORK SCHOOL DISTRICT

Roundtown Elementary School — Additions and Renovations

Manchester Township, Pennsylvania

Roundtown Elementary School is a 50,000 SF existing facility built in 1991. For this project, the entire facility is rearranged programmatically, renovated, and approximately 30,000 SF is added. The school is sited adjacent to a second elementary school and, since the two schools are viewed as a campus, a main goal of the Roundtown project includes matching the aesthetics of the existing structures as closely as possible. Additionally, the educational design focuses on the “school within a school” concept and places a media center at the core of the building.

Construction complete August 2006
