

SWARTHMORE COLLEGE

Lamb Miller Field House Team Locker Alterations

Swarthmore, Pennsylvania

SGA works closely with the Athletic Director and Facilities Management of Swarthmore College on the renovation and alteration of the team locker rooms of the Lamb Miller Field House. The renovation encompasses over 5,300 sf and includes new carpet flooring as well as lighting, HVAC and plumbing upgrades. The design allows for the addition of 100 wood team lockers to both the male and female locker areas. ADA accessibility issues also are considered throughout the design process.

Construction complete September 2006
